

Cloud PBX 20 Plan

This Critical Information Summary sets out the important information you need to know about your plan. It covers things like the length of contract, how much you need to pay, what's included and what's not.

About the service

The UNIVOX Cloud PBX is a business phone system hosted in secure data centers across Australia, providing high-quality voice and video communications over the internet using Voice over Internet Protocol (VoIP) technology.

This plan enables you to connect a compatible IP phone to our UNIVOX Cloud PBX platform, giving you access to all standard Cloud PBX features. This Critical Information Summary outlines the pricing and special conditions that apply to your Cloud PBX 20 Plan

Connection & availability

To use this service, you'll need a compatible internet connection, modem, and IP phone. These can be purchased from us or included in your plan, or you may use your own if fully compatible with our Cloud PBX system.

We cannot guarantee service reliability or performance when third-party equipment or services are used, and we are not responsible for their configuration or support unless agreed in writing. Network setup and device settings may need adjustment to achieve optimal call quality.
