

Inbound 13 Number Plan

This Critical Information Summary sets out the important information you need to know about your plan. It covers things like the length of contract, how much you need to pay, what's included and what's not.

About the service

This plan provides access to a 13 number inbound phone service. This Critical Information Summary outlines the pricing and special conditions that apply to your 13 number plan.

13 numbers are a 6-digit virtual phone number. They are used to receive calls from an Australian local phone number or mobile phone number and cannot be used to make outbound calls. Calls made to your 13 phone number can be answered on your UNIVOX phone or softphone, or you can forward calls to another number.

Connection & availability

To use this service, you will need an active Cloud PBX or Softphone voice service with UNIVOX. If you're looking for a specific 13 phone number you can search availability and purchase the number from the Australian Communications and Media Authority's "Smartnumbers" website at <https://www.thenumberingsystem.com.au>.

Your network, devices & Internet service

Your Internet service, router, softphone, mobile plan, and the way data is transmitted over your network may effect the performance of our voice services. You may need to adjust your network and devices to achieve optimal call quality.

What's included in your plan

Your plan includes Australia-wide and State-based and time-based routing of calls made to your 13 inbound phone number.
